company is formed to meet a growing necessity. The phenomenal development in Virginia presents unrivated opportunities for safe investment and large and quiek returns. Capital and harge and quiek returns town property, mineral lands, stocks or sacritics. Large fortures have been legitimately and quiekly sequired by investments, both by individual clerot and especially by combined capital. To those who have the time and means to come and see and invest for themselves, an field offers richer returns. But the visitor is embarrassed by the very multimed of opportunities offered him on every side in the many localities, and can, with difficulty, determine where it is best for him to place his money.

Again: Even those upon the grounds are often compelled to let slip rare opportunities daily presenting themselves, smply because of lack of sufficient individual means. It is frankly believed that this Company weets both of these embarrassments.
